ABOUT ME

I am Viraj Kadam, an enthusiastic and highly motivated aspiring Full-Stack Developer with practical experience in Next.js, ORMs, and modern CSS frameworks. I am actively seeking opportunities to learn, gain real-world exposure, and contribute to building impactful applications while continuously improving my technical skills.

SKILLS

Languages: Python, TypeScript, JavaScript, SQL

Frameworks: Next.js, Django, Angular

Databases: SQL, SQLite, PostgreSQL

Others: Prisma, REST APIs, DBMS, Shadcn

CERTIFICATIONS & COURSES

1. Eduskills AI-ML virtual internship (April 2024 - June 2024)
 2. Python Full Stack Developer (Ongoing)
 3. Sales, Operations and Marketing Intern at RKDEMY (May 2023 - July 2023)
-

EDUCATION

B.E. Electronics and Telecommunication (2022 - 2025)

K.C. College of Engineering

Diploma in Computer Engineering (2022 - 2025)

Bharathi Vidyapeeth Institute of Technology

EXPERIENCE

Full Stack Developer Internship at Clinch Edge Solutions

PROJECTS

BIKE STORE MANAGEMENT

Designed and developed a full-stack bike store management system to manage product listings, customer orders, and inventory. The app streamlines workflows, enhancing data accuracy, and significantly improving overall business efficiency and operational performance.

Tech Stack : Django, Angular, HTML, CSS, JS

Key Takeaways : Hands-on project with Django and Angular, Introduction to Angular

ONLINE CLIPBOARD

Developed a quick text sharing website with the help of 4-digit codes and also a shareable and downloadable QR code functionality. This is made by leveraging the skills in vanilla HTML, CSS, JS and Firebase, it is hosted on Vercel.

Tech Stack : HTML, CSS, JavaScript, Firebase

Key Takeaways : Integration of Vanilla HTML, CSS, JS to make a useful app for daily basis

TO-DO LIST APP

Developed a To-Do list app with real-time updated about tasks to be done. It has a personalized dashboard for the authenticated user about their tasks and the details about their completed tasks. The dashboard portrays intuitive graphs for more understanding.

Tech Stack : Nextjs, Nodejs

Key Takeaways : Introduction to Nextjs

SUSTAINABLE FERTILIZER USAGE OPTIMIZER FOR HIGHER YEILD

The Sustainable Fertilizer Usage Optimizer improves crop yield and environmental sustainability by using real-time soil data, weather insights, and predictive algorithms to deliver precise, informed fertilizer recommendations.

Tech Stack : Python, Raspberry Pi, Arduino

Key Takeaways : Hands-on development with Hardware and Software

HOBBIES

1. Guitarist
2. Reading
3. Brain Exercises
